Summary

As a 3D designer with experience in boats, products, and graphic design, I have a broad range of skills that can be applied in various industries. I have a good understand about engineering and manufacturing processes, know how to create 3D models with ergonomics, user experience, and manufacturing in mind, and have a good grasp of typography and color theory for graphic design.

Such designers are adaptable, detail-oriented, creative, and highly knowledgeable, making them effective in managing complex projects.

Experience

3D "Boats" Designer

G Marine Fibreglass Works LLC

Mar 2023 - Present | Abu Dhabi, UAE

Create new ideas and develop

Solve applying problems of designs direct the producing processes

3D "Graphic" Designer

Systematic Art Works LLC

Aug 2021 - Mar 2023 | Abu Dhabi, UAE

Production Manager

Create new ideas and develop "packaging, and branding designs"

3D "Furniture" Designer

Tomahawk Carpentry LLC

Mar 2021 - Aug 2021 | Abu Dhabi, UAE

Make designs for "Kitchen, Rooms, and Doors".

CNC machine Coding.

Mechanical Engineer

Sudanese Sugar Co. Ltd

Jan 2018 - Feb 2021 | Khatroum, Sudan

Section Engineer "Department of Manufacture"

General Maintenance Engineer "Harvesting Season"

Education

University of Nyala

Bachelor Honor of Engineering - B.Sc (honor) Mechanical Engineering

Sep 2008 - Dec 2015

Personal Skills

• Creative thinking:

A 3D designer should have strong creative skills, including the ability to come up with unique and imaginative solutions to design problems.

• Attention to detail:

3D design often requires a high level of precision in order to create accurate and realistic images. A keen eye for detail is essential.

• Technical skills:

It's vital that a 3D designer has a solid understanding of the software and tools required to create 3D images, as well as knowledge of design principles.

• Communication skills:

A 3D designer needs to be able to effectively communicate with both clients and other members of the design team. This includes being able to present ideas and designs clearly and concisely.

• Time management:

Working as a 3D designer often involves tight deadlines, and it's important to be able to manage your time effectively to meet these deadlines and deliver high-quality work.

• Teamwork:

A 3D designer should be able to work effectively as part of a team, collaborating with other designers, artists, and clients to produce the best possible outcome.

• Adaptability:

Design projects can involve unexpected changes, and a 3D designer needs to be able to adapt and adjust their designs as needed to accommodate new information or requests.
